The ARCC serves as the City of Attleboro's source for Republican activism. We are chartered through the [Massachusetts Republican Party](#). Our membership represents all of life and includes local attorneys, business owners, laborers, teachers, politicians, retirees, students and work-at-home parents. Our membership comprises all of ethnicities, religious affiliations, vocations and income levels of our great City.

As members of the Attleboro Republican City Committee, we do our best to contribute to our community and participate to ensure that public discourse is healthy. Our works best when more than one party is represented. We endeavor to have a viable two-party government so that we ALL can benefit from our great Democracy.

We invite and encourage all those interested in lower taxes, limited government and local control by the citizens to [sign up for membership in the ARCC](#). We welcome Republicans, Independent (un-enrolled) voters, and others who are interested in helping further the Conservative Cause to attend any of our meetings and social events.

L-R - City Council President Frank Cook,  
State Rep. Betty Poirier and Mayor Kevin Dumas
